

What is AMSAT®?

AMSAT Members are a worldwide group of enthusiastic individuals designing, building, and operating amateur radio satellites as part of our program of space science education.

The Radio Amateur Satellite Corporation (AMSAT or AMSAT-NA) is a non-profit scientific and educational organization chartered in Washington, DC, in 1969. Since then, AMSAT and colleague organizations around the world have built over 50 ham radio satellites. 15 of these satellites continue in operation.

Joining AMSAT supports our current projects: Eagle, AMSAT-OSCAR-E (Echo), and ARISS. Eagle is a high orbit DX capable satellite planned for a 2007 launch; Echo is a low orbit FM and digital bird you will be able to use with simple equipment, planned for launch in 2004; and ARISS is our program on the International Space Station. You will keep up to date on the world of amateur radio satellites with 6 issues of the AMSAT Journal every year.

We'd like to have you as a member!
