

# ARISS USA Report

ARISS International Delegates  
Meeting  
*1 August 2005*

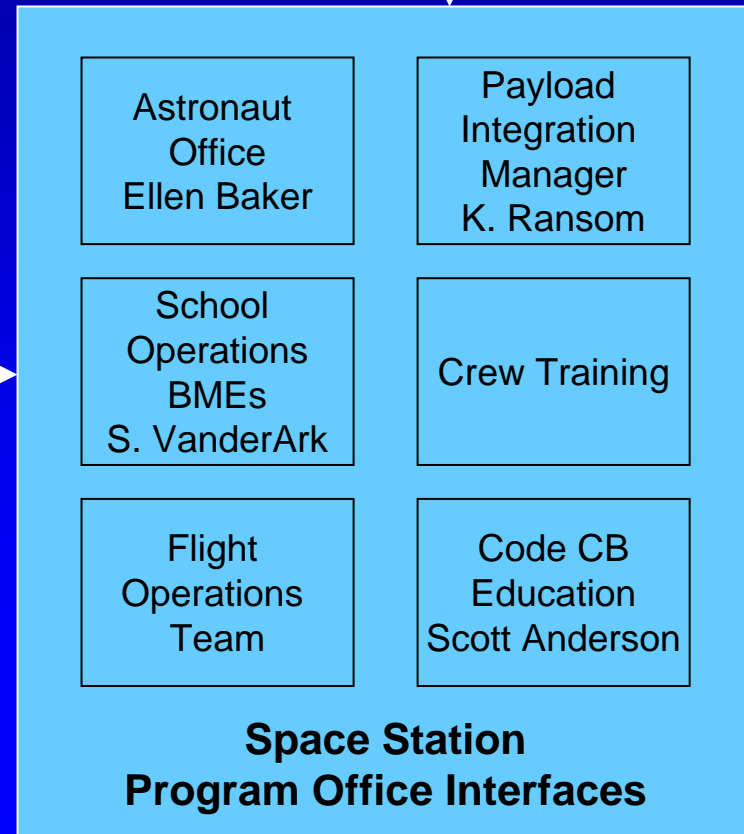

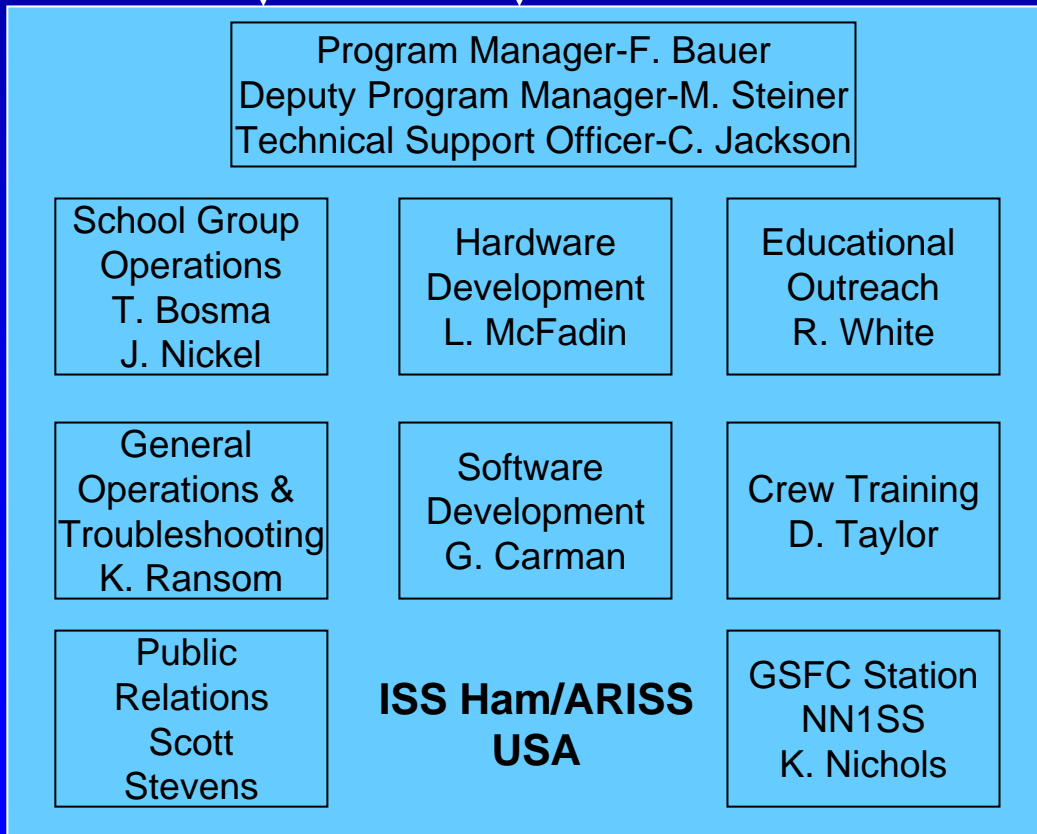

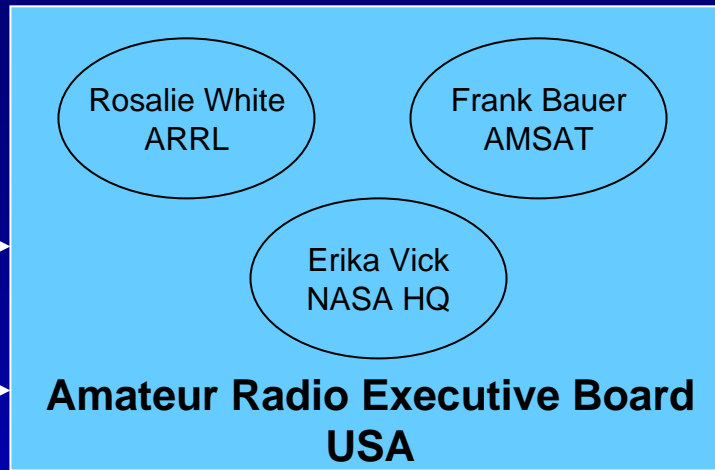

Frank H. Bauer, [ka3hdo@amsat.org](mailto:ka3hdo@amsat.org)

Rosalie White, [k1sto@arrl.org](mailto:k1sto@arrl.org)

# Changes

- Debbie Brown-Biggs left NASA. Replaced with Erika Vick
- New NASA Administrator, Mike Griffin, is radio amateur with callsign NR3A
- Expect significant changes in NASA top leadership in the next several months. This may require additional communications with the new leaders to inform them of our program

# Team Interactions

# U.S. Team Major Challenges

## Background

- ARISS Budget from NASA obtained from 2 sources
  - 1/2 from Education Flight Programs
  - 1/2 from Space Operations (Shuttle/ISS)

## Issue

- Lost full funding from Space Operations in 2005 and 2006
  - Return to flight overruns
  - Funding moves from Space Operations to Exploration
- Funding shortage threatened short term (2005-2006) and long term viability of US team's support to ARISS

## Current Status

- Most of 2005 funding restored from Education Flight Program office end of fiscal year transfers
  - Received this past week
- Funding to allow full operations until mid 2006
- Long term funding issue still needs to be addressed

# Engagement of NASA Explorer School (NES) Program with ARISS Program

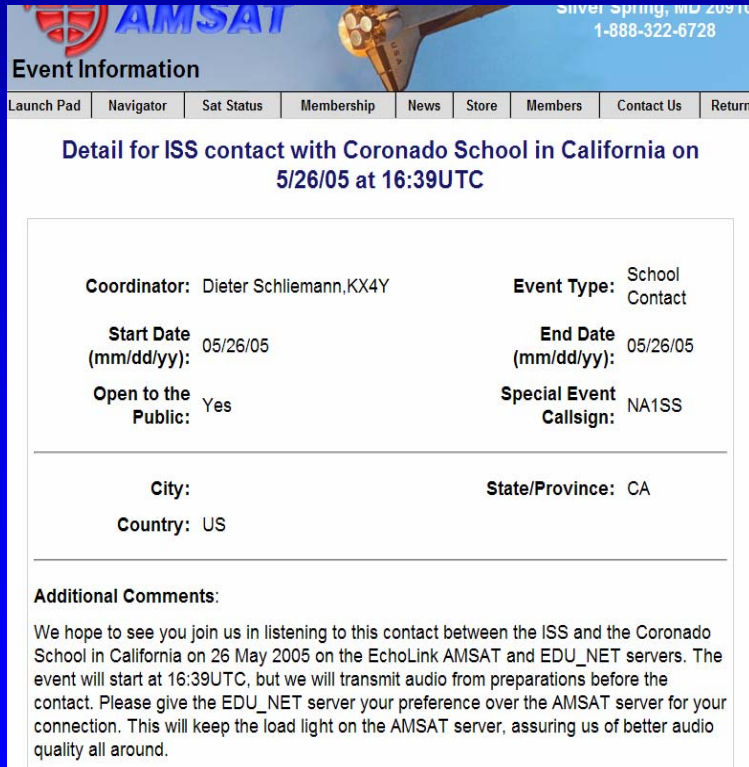

- Discussions with Debbie Brown-Biggs and Peg Steffen (NES Program Manager) has led to a strong partnership with NES program
  - Leverage common NASA Educational Outreach Interests
- To date, two NES/ARISS educational contacts have been performed
- Recently held NES educator workshop to better inform teachers on ARISS
- US team will be placing high priority on future NES school applications

# Voice Over Internet Protocol (VOIP)

*IRLP, Echolink and Internet Streaming Providing a Wider Reach to Schools and Hams Around the World*

## Echolink

### AMSAT and EDU\_NET Servers

AMSAT Silver Spring, MD 20910

Detail for ISS contact with Coronado School in California on 5/26/05 at 16:39UTC

Coordinator: Dieter Schliemann, KX4Y	Event Type: School Contact
Start Date (mm/dd/yy): 05/26/05	End Date (mm/dd/yy): 05/26/05
Open to the Public: Yes	Special Event Callsign: NA1SS
City:	State/Province: CA
Country: US	

Additional Comments:

We hope to see you join us in listening to this contact between the ISS and the Coronado School in California on 26 May 2005 on the EchoLink AMSAT and EDU\_NET servers. The event will start at 16:39UTC, but we will transmit audio from preparations before the contact. Please give the EDU\_NET server your preference over the AMSAT server for your connection. This will keep the load light on the AMSAT server, assuring us of better audio quality all around.

## IRLP

### 9010 "Discovery" Reflector

New Tab IRLP Reflector 9010 Discovery

**IRLP REFLECTOR 9010 DISCOVERY**

Thursday, May 26, 2005

Time of connection to Reflector: 1625 UTC (approximately)

Participating School: Coronado Village School

**Village** Elementary School  
Location: Coronado, California, USA

Time of School Contact with ISS: 1639 UTC (approximately)

# Discussions with NASA on Expansion of Program Outreach

- Three types of outreach:
  - Internal NASA
  - International Ham Radio Community
  - General Public
- Expansion ideas started or completed include:
  - Weekly status reports to NASA and ham radio community---initiated
  - NASA Lithograph---available
  - Additional school lesson plans—in work

# Discussions with NASA on Expansion of Program Outreach (Continued)

- Expansion ideas being discussed/in-work include:
  - School group collaboration through listserv and teleconferences
  - Shorter queues for school contacts
  - More involvement of hams licensed in Aerospace Education Program team doing outreach at schools, businesses and communities
  - Terrestrial contacts with astronauts & engineers
  - New NASA web site for ARISS---will provide ~2 billion hits per year (will supplement existing ARISS web site)
  - Periodic magazine-type articles on the NASA web site

***Note: Some of the above will require additional support from NASA***

# How does Expansion Impact ARISS Team?

- Listserv/school coordination: additional support
- Shorter queues: Development of periodic (yearly?) competitive selection of schools to be offered contact
- Aerospace education program involvement: educating and involving them in our activities
- Terrestrial contacts: team expansion
- Web page development & magazine articles:
  - Requirement for schools to have high quality photography, video & audio from each contact
  - Timely acquisition & archive of release forms for students & teachers so that material can be used on web sites and in articles
  - Team members to write articles and compile information for web site and magazine articles

***Note: Some of the above will require additional support from NASA***
