- *The committee handles all business via email, a preference of the committee members.*
- *We share all applications; each is looked over by committee members.*

Educational Outreach / School Selection Committee

- Charlie Sufana posts applications and priority lists for all ARISS regions to the ARISS web pages.
- He also reviews the technical portions of the US applications.
- Rita Wright reviews the educational portions of the US applications.

Educational Outreach / School Selection Committee

Special issues that arise in an ARISS region are brought to “the floor” via email from time to time for a healthy discussion.

Lessons learned from one region are helpful to another region.

Educational Outreach / School Selection Committee

Each ARISS region has its own idiosyncrasies, so most final decisions are made by the region's own committee members.

The exception to this is if a decision would affect more than one region

Educational Outreach / School Selection Committee

On occasion, for a particular issue, the Terms of Reference that the committee devised in years past are reviewed.

- Thanks goes to all committee members for their hard work that has continued over the years!
