

9.3.2 Other US Proposals

*ARISS International
Meeting
NASA GSFC
December 7, 2002*

Other U.S. Proposals

- Starshine on Station, Gil Moore
 - See word document
- Enhanced Digital Proposal, Jan King
 - See word document
- Naval Academy Concepts for the Future
 - Bob Bruninga will present
- Project SOAR--Station Ocean-reflection and APRS Reception Experiment using GPS, Jim Garrison and Frank Bauer
 - Proposed at ESTEC 2000 meeting
 - Provides real time space station tracking information to amateur radio ground stations via GPS and supports APRS data collection. This represents the first substantial opportunity to collect ocean-reflected GPS data from an on-orbit GPS receiver.
