

## What is AMSAT®?

AMSAT Members are a worldwide group of enthusiastic individuals designing, building, and operating amateur radio satellites as part of our program of space science education.

The Radio Amateur Satellite Corporation (AMSAT or AMSAT-NA) is a non-profit scientific and educational organization chartered in Washington, DC, in 1969. Since then, AMSAT and colleague organizations around the world have built over 50 ham radio satellites. 15 of these satellites continue in operation.

Joining AMSAT supports our current projects like Eagle and ARISS. Eagle is a high orbit DX capable satellite planned for a 2009 launch and ARISS is our program on the International Space Station. You will also be supporting the operation of AMSAT's latest satellite AMSAT-OSCAR-51 ("Echo"). You will keep up to date on the world of amateur radio satellites with 6 issues of the AMSAT Journal every year.
