

Active Amateur Radio Communications Satellites as of June 27, 2016 (13)

<p>FM Satellites (3) AO-85 (Fox-1A) SO-50 (SaudiSat-1C) CAS-3H (LilacSat-2)</p> <p>Linear Transponder Satellites (SSB/CW) (7) AO-7 FO-29 (JAS-2) AO-73 (FUNcube-1) UKube-1 (FUNcube-2) XW-2A (CAS-3A) XW-2C (CAS-3C) XW-2F (CAS-3F)</p>	<p>Digital Satellites (3) ISS (AX.25 APRS Digipeater) NO-44 (PCSAT-1) (AX.25 APRS Digipeater) NO-84 (PSAT) (PSK31 Transponder/ AX.25 APRS Digipeater)</p>
---	---

Amateur Radio Satellites in Orbit – Not Currently Available for Amateur Use (5)

<p>FM Satellites (1) EO-80 (QB50p2)</p> <p>Linear Transponder Satellites (SSB/CW) (4) XW-2B (CAS-3B) XW-2D (CAS-3D) EO-79 (QB50p1 / FUNcube-3) LUSEX on NuSat-1</p>	<p>Digital Satellites Several satellites in orbit contain digipeater or messaging systems intended to be used by the amateur radio community following the completion of their primary mission. Due to the uncertainty of their eventual activation, they are not included here.</p>
--	--

Future Amateur Radio Satellites (Subject to Change)

<p>AMSAT Fox FM Satellites RadFXSat (Fox-1B) (1/20/2017) Fox-1Cliff (Fall 2016) Fox-1D (Fall 2016)</p> <p>AMSAT Fox Transponder Satellites (SSB/CW) RadFxSat-2 (Fox-1E) (Selected for future NASA CSLI launch)</p>	<p>Linear Transponder Satellites (SSB/CW) Nayif-1 (FUNcube on Nayif-1) (Fall 2016)</p> <p>Digital Satellites QIKCOM-2 (Fall 2016) PSAT-2 (Spring 2017) BRICSAT-2 (Spring 2017)</p>
